

Covid-19 Statement

Johnsons is a COVID-19 Secure business.

The health and safety of our employees, customers and our communities are, and will continue to be our priority. At the same time, we maintain our commitment to offer the highest level of products and services to our customers.

Our dedicated Covid-19 Management Team are convening daily to monitor, assess and implement guidance from the relevant authorities including the Department of Health & Social Care (DHSC), Public Health England (PHE) and the Health & Safety Executive (HSE), which is a rapidly evolving situation.

Procedures are in place to support employees who have either been diagnosed with COVID-19 or have been in close contact with someone who has. We are also providing flexibility for those team members who have been classed as high risk by the NHS.

We have:

- Cancelled all non-essential business travel, including movement between our sites
- Put in place video conferencing systems to maintain necessary communication with staff and stakeholders
- Implemented best practice hygiene measures in line with WHO and Department of Health recommendations
- Reinforced H&S protocols to our employees, including Covid-19 specific requirements
- Minimised the amount of paperwork being passed around by staff and customers
- Satisfied ourselves that our plan for PPE stocks is sufficient to cope with increased demand
- Introduced social distancing across all our sites
- Staff working from home where possible

We recognise that this is a challenging time for us all, but we can assure you that at Johnsons Aggregates & Recycling Ltd we are always committed to keeping our staff and customers as safe as possible.

All COVID-19 correspondence should be addressed to covid19@johnsonsaggregates.com
